INNER BLOOM — A Way to Return to Yourself

In the heart of Trentino, surrounded by alpine nature, thermal waters and the tranquillity of the mountains, **Inner Bloom®** is a six-day Ayurvedic retreat dedicated to restoring the balance between body and mind according to the principles of Āyurveda.

Organised by Ayurvedic Point, the School and Centre for Ayurvedic Medicine in Milan, in collaboration with the Albergo Palazzo Lodron Bertelli, a 15th-century historic residence in Caderzone Terme, the retreat is inspired by the themes of longevity, lifestyle and prevention.

Each participant will receive personalised guidance through an Ayurvedic medical consultation at the start of the retreat, followed by daily follow-up assessments, which will guide their treatments, diet and practices throughout their stay.
The medical team is led by Dr Antonio Morandi, specialist in neurology and an expert in Āyurveda.

Arrival: Tuesday 6 July 2027
